

## GOLD CUP PLATE 2015

Hi all

Only 5 teams this year which in a sense is good news as more teams managed through the first two rounds..... This unfortunately make the draw awkward.....

The Top team is the home team, and the first team through becomes the home team. We all hope that each draw is never a problem but we need a home team just in case it becomes one. I would advise you to agree the amount of boards that you will play before you actually meet as this will eliminate any problems. 32 is the norm **48 in the final**..... but if both captains wish 24 it is ok for the early rounds

The full teams are on another sheet (teams) with the email address of each captain (yellow) at the bottom of each team. I would appreciate if you all let me know if you receive this email and also if you would keep me informed of the results as you progresses.

As most of you know it must be finished by the end of August for further entry into the GB final.

Good luck to all and keep in touch if any problems.

Stewart Duguid

Conveyer of the Gold Cup Plate
