Post General Meeting Presentation

- Implication for members of the SCIO
- What preparatory work has been done so far?
- The Scottish Governance Code
- Organisation Structure
- Agreed vision, mission, outcomes and values for the SCIO
- General Manager role
- Q&A
Implications for Members of the SCIO

• Members of affiliated clubs need to be members of SBU
• Members need to act in the interests of SBU, in a manner which is consistent with its charitable purpose

SBU needs to
• Have robust and effective communication channels to serve our members
• Maintain accurate records of postal address and telephone numbers (SCIO requirement)
• Maintain email addresses for those with internet capability as our primary communication tool

We hope that club secretaries will encourage their members to provide these details where they are missing.
Work undertaken so far

Trustees have

• Set up governance practices based on the Scottish Governance Code
• Agreed vision, mission, outcomes and values for the SCIO
• Considered changes to the organisation structure
• Agreed the need for a General Manager to be responsible for operational matters

In addition, necessary operational matters have been addressed
Scottish Governance Code

The Board of Trustees will follow 5 principles of good governance

• be clear about SBU’s purpose, vision, and values and how it will achieve these aims
• be clear about its role and responsibilities and provide strategic direction in line with our purpose, vision, and values
• both collectively and individually, embrace and demonstrate mutual respect, integrity, openness and accountability
• put in place appropriate controls to direct and oversee our progress and performance
• understand its role, powers and duties, and work collectively and proactively to achieve our purpose
